

# NLD Focus Areas

(List of gaps you are addressing)

- Mail/calendar/addressbook: Evolution
- Usability testing: [betterdesktop.org](http://betterdesktop.org)
- Search, metadata: Beagle, inotify
- Photo management: F-Spot
- Legal music stuff: Banshee
- OOo VBA support, performance, compatibility with MS Office, community: [go-ooo.org](http://go-ooo.org)
- 3<sup>rd</sup> party developer platform: Mono
- Other contributions: HAL/gvm/etc, Firefox svg/xhtml, ...

# NLD Challenges

(What's not getting solved)

- OpenOffice user interface, footprint, and compelling original functionality
- A widely accepted Windows application migration mechanism
- WMV/WMA/MMS and to a lesser extent QuickTime and MPEG2/Dolby
- DRM so that we can play purchased content
- Laptop suspend/standby
- Drivers for some hardware

# NLD: Noteworthy Dependencies

(projects and needs from each)

- Sun: OpenOffice continued development
- Real: Helix and codec licensing
- Device drivers

# NLD Possible Follow-on Meetings

(list of orgs and topics)

- OpenOffice usability and performance
- Multimedia licensing
